PCT Nutrition — Protecting Gains

During PCT, prioritise protein to maintain muscle despite dropping hormone levels. Reduce caloric surplus and increase micronutrients.

Nutrient	PCT Target	Foods	Why
Protein	2.5 g/kg	Eggs, chicken, whey, paneer	Prevent muscle catabolism
Zinc	30 mg/day	Red meat, pumpkin seeds, nuts	Testosterone synthesis cofactor
Vitamin D	5000 IU/day	Supplement + sunlight	Steroidogenesis
Cruciferous veg	Daily	Broccoli, cauliflower	DIM for estrogen metabolism
Omega-3	4 g/day	Fish oil capsules	Inflammation, lipids
Magnesium	400 mg/day	Supplement	Sleep, testosterone
Ashwagandha	600 mg/day	Capsule (KSM-66)	Natural testosterone + cortisol
